

Welcome to 5th Grade! Summer 2017

Welcome to 5th Grade!

We appreciate you and your child reading our summer mailing in preparation for a successful beginning of the 2017-2018 school year.

Helping students learn organizational skills is one of the team's priorities. In order to start the year in an organized manner, we are requesting that your child come to the first day of school with the materials listed in this letter. **Zippered trapper keepers are not requested as they discourage use of our recommended binder system which ensures students remain consistently organized. As the year progresses, supplies should be replenished as needed.**

**Please note:*

As part of our science safety protocol, it is required that water bottles used in the science classrooms have a sport top or one that does not need to be handled/removed in order to drink. It may be easiest to have your child use an approved water bottle for all of his/her classes rather than not being able to bring it to science class. Also, please remember that only **plain** water is allowed.

Additional copies of this mailing are available in the Horace W. Porter Main Office as well as our Grade 5 website.
